

I am writing in regards to share the great benefit K-love radio is to our family and community. K-love provides a positive message for kids, teens, and us older people too. There is no profanity or suggestive lyrics, my 4 year old loves to sing the songs and I don't have to worry about what she is hearing. It is good for the community to continue to have access to such quality programming. Thank you for your time.

Sincerely,

The Julian family
